### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Claims 10-20** have been cancelled.

2. The following is an examiner's statement of reasons for allowance:

Applicant has elected claims 1-9 without traverse. Prior art of record, taking individually or collectively, fails to fairly teach an interface circuit for communicating with a two-wire loop, as claimed, including "a power extraction circuit connected to the two-wire loop and operable to generate a DC operating voltage for use in powering the interface circuit and a related device, the power extraction circuit including a DC-to-DC converter that generates the DC operating voltage as a voltage having a smaller magnitude than a voltage between the two wires of the two-wire loop; a current sensor connected to the two-wire loop and operable to generate a measure of an analog current through the two-wire loop, the measure being used in controlling a device associated with the interface circuit; and a digital communications circuit connected to the two-wire loop and operable to inject a digital transmission signal on to the two-wire loop and to extract a digital reception signal from the two-wire loop, the digital communications circuit including an impedance controller having an operational amplifier connected to control an impedance presented to the two-wire loop by the

interface circuit" in independent claim 1 (claims 2-9 depend therefrom). Thus, claims 1-9 are found to be novel and unobvious over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
